

Corporate Governance Statement 2020

Raisio plc

CORPORATE GOVERNANCE STATEMENT 2020

Introduction

Raisio plc ("Raisio") complies with the Finnish Corporate Governance Code (2020) approved by the Securities Market Association. The Code is available on the Securities Market Association's website at <https://cgfinland.fi/en/>. Raisio plc is a contributing member of the Securities Market Association.

This presentation is the corporate governance statement referred to in the Finnish Corporate Governance Code (2020) for the financial year 2020. It is issued separately from the Board of Directors' report and published on the company's website (<https://www.raisio.com/en/investors/corporate-governance/statements/>).

Raisio's Audit Committee and Board of Directors have reviewed this statement regarding the corporate governance. Raisio's audit firm, KPMG Oy Ab, has checked that the statement has been issued and that the description of internal control and risk management systems related to the financial reporting process is consistent with the financial statements.

In 2020 Raisio deviated from the Recommendation 3 of the Corporate Governance Code regarding the attendance at the General Meeting. Due to the Covid 19 pandemic, the Annual General Meeting of 2020 was held at the company's headquarters with special arrangements on 27 April 2020 and the number of participants was limited based on the restrictions by the authorities. Raisio is reporting this as a deviation from the Code, since only the Chairman of the Board and the CEO were present at the AGM, whereas the other members of the Board and the auditor were available via telephone or through remote access. In other respects, Raisio followed the Corporate Governance Code without deviations.

Annual General Meeting

The Annual General Meeting (AGM) is the Company's highest decision-making body. It meets annually by the end of April to decide on the matters within its responsibilities, such as the adoption of the financial statements and consolidated financial statements, dividend distribution, discharge from liability, election of Board and Supervisory Board members and auditors, and the fees payable to them. Extraordinary General Meetings can be held if necessary.

The notice of the AGM shall be published, at the earliest three months and at the latest, three weeks before the AGM on the Company's website and possibly in another manner determined by the Board. However, the notice of the AGM must be published no later than nine (9) days before the record date of the AGM.

The AGM 2020 was held at the company's headquarters in Raisio, and a total of 1,792 shareholders were personally present or represented by a proxy, representing 44.3 million shares of the total share capital. Only the Chairman of the Board and the CEO attended the AGM.

Board of Directors

According to the Articles of Association, The Board consists of a minimum of five and a maximum of eight members elected by the AGM. Their term begins at the end of the AGM at which the election takes place and lasts until the end of the following AGM. Person who has turned 68 before the beginning of the term cannot be elected as a Board member. The Board elects a Chairman and Deputy Chairman among its members for one term at a time.

The Board is responsible for the Company's administration and the proper organisation of its operations. The Board controls and supervises the company's operative management, approves strategic objectives and risk management principles and ensures that the management systems are fully functional.

The Board meetings are quorate when the Chairman or the Vice Chairman and more than half of the other Board members are present. If necessary, the meeting can also be held through remote access. The Chairman calls a Board meeting when necessary, or if requested by a Board member or the CEO. The Chairman decides on the agenda of each meeting based on the proposals made by the CEO or Board members. The agenda and any possible advance material related to the matters to be dealt with shall be delivered to the Board members, at the latest, four business days prior to the meeting, unless otherwise required by the nature of the issue. CEO, a Group Executive Committee member or an expert presents the issues the Board is to decide on.

The secretary of the Board prepares minutes on the matters that the meeting dealt with and made decisions on. The minutes are approved at the following meeting and signed by all the members who were present.

According to the Board of Directors' rule of procedure, the main duties of the Board are:

- to approve Raisio's strategy and supervise its implementation,
- to define and confirm the Group's key principles of the company's business, as well as ethical values and procedures,
- to approve annual action plans, budgets and supervise their implementation,
- to decide on major investments, acquisitions and divestments,
- to process and approve financial statements and interim reports,
- to confirm the dividend policy and make dividend proposals to the General Meeting,
- to confirm the Group organisation, appoint and discharge the CEO and, following the CEO's proposal, to appoint and discharge his/her immediate subordinates, as well as to approve the CEO's employment contract and other benefits,
- to decide on incentive and reward schemes for the management and personnel, and if necessary, submit proposals concerning them to the AGM,
- to annually review key operational risks and their management,
- to ensure the functionality of the Group's planning, information and monitoring systems,
- to approve of the Group's key principles, ethical values and practices.

In 2020, the number of the Board members was six. In 2020, all the Board members were independent of the company and of its major shareholders.

In 2020, the Board had 20 meetings of which 7 were held by telephone, two by e-mails and one was an organizing meeting after the AGM. Attendance at the Board meetings was 99.2 per cent.

The Board conducted an internal assessment of its operations in autumn 2020.

Competence and expertise of the Board members and Board diversity

The Board and Supervisory Board defined the criteria set for Board members concerning their competence and expertise as well as the diversity principles, taking into account the scale and development stage of the company's activities.

In order to ensure effective Board work, all Board members must have sufficient expertise, competence, experience, and time to familiarise themselves with the matters being dealt with and to carry out their duties.

As a collective, the Board must have adequate knowledge, skills and experience especially in matters related to the company's industry and business operations, in business management, group management and financial management, in financial statements and financial reporting, in internal control and risk management, in M&A and in corporate governance.

The diversity in the Board of Directors supports the company's operations and its development. The diversity in the Board members' expertise, viewpoints and personality contribute to the ability to respond openly to innovative ideas and to support and challenge the company's executive management. With adequate diversity, it is possible to avoid the similarity in the members' views, i.e. group thinking.

The Board should consist of people from different age groups who have adequate experience in Board governance. The aim is that the Board comprises at least one third of both genders. Competency objectives have priority over nationality and the members may be from Finland or from abroad.

A person cannot be proposed as a Member of the Board, if his/her consecutive terms as Raisio's Board Member exceed 10 years (counted from the term commencing from the AGM of 2020), unless this can be justified by e.g. from the point of view of competence, expertise, diversity or the company's interests.

Aija Immonen, Master of Laws, has served as the Secretary of the Board as from April 2018.

Board's Remuneration Committee

The Board has established a Remuneration Committee to enhance the preparation of remuneration and nomination matters pertaining to the Board.

The duties of the Remuneration Committee include the preparation of matters concerning remuneration and other financial benefits of the CEO and deputy managing director (if any), the appointment of the CEO, deputy managing director (if any) and other company executives, as well as the assessment of successor issues, the incentive and remuneration schemes of management, key employees and staff, as well as significant organisational changes.

In 2020 the Committee members were Ilkka Mäkelä (Chairman), Erkki Haavisto and Arto Tiitinen.

The Committee is convened by the Chairman as often as needed and it may use experts from within or outside the company to the extent it is considered necessary. The Committee's secretary is either the Secretary of the Board or the Group's Vice President, Human Resources. In 2020, the Remuneration Committee convened eight times, with an attendance of 100 per cent.

Board's Audit Committee

The Board of Directors has appointed an Audit Committee as of 2017 in order to enhance the preparation of matters related to financial reporting and control under the Board's responsibility.

The responsibilities of the Audit Committee include:

- monitoring the process of financial statements reporting,
- overseeing the acquisition processes,
- monitoring the company's internal control and audit as well as the effectiveness of risk management systems,
- processing of the description of the main features of the internal control and risk management systems included in the Corporate Governance Statement,
- monitoring the statutory audit of the financial statements and consolidated financial statements,
- evaluating the independence of the statutory auditor or audit firm and, in particular, the non-audit services provided to the Company,
- preparing a proposal for a decision on the election of the auditor, and
- reviewing other issues addressed to the Committee by the Board of Directors.

In 2020 the Committee members were Ann-Christine Sundell (Chairman), Leena Niemistö and Pekka Tennilä. Chairman of the Supervisory Board or, if he/she is prevented from attending the meeting, the Deputy Chairman of the Supervisory Board, has the right to attend and speak at Committee meetings.

The Committee is convened by the Chairman as often as needed and it may use experts from within or outside the company to the extent it considers necessary. The Secretary of the Board of Directors or the Group's CFO acts as secretary to the Committee.

In 2020, the Remuneration Committee convened six times, with an attendance of 100 per cent.

Supervisory Board

The Supervisory Board consists of a minimum of 15 and a maximum of 25 members, whose term begins at the AGM at which the election takes place and ends at the end of the third AGM following the election. One-third of the members are replaced every year. The AGM held in spring 2020 confirmed the number of members in the Supervisory Board to be 25. In addition to the members elected by the AGM, the Supervisory Board also includes three members whom the personnel groups, formed by Raisio Group's employees in Finland, have elected as their representatives. Person who has turned 65 before the beginning of the term cannot be elected as a member of the Supervisory Board.

The Supervisory Board supervises the corporate administration run by the Board and CEO, and gives the AGM a statement on the financial statements and auditor's report. Chairman of the Supervisory Board or, if he/she is prevented from attending the meeting, Deputy Chairman of the Supervisory Board has the right to be present and to speak at all Raisio plc's Board meetings.

Supervisory Board elects Chairman and Deputy Chairman among its members for one term that begins at the first Supervisory Board meeting following the AGM and ends at the first Supervisory Board meeting held after the following AGM.

Paavo Myllymäki has served as Chairman of the Supervisory Board and Holger Falck as Deputy Chairman; both throughout 2020. Aija Immonen, Master of Laws, has served as the Secretary of the Supervisory Board as of April 2018.

The Supervisory Board convened three times in 2020, with an attendance of 88.0 per cent.

All members of the Supervisory Board are independent of the company's major shareholders. In regard to the issue of independence of the company, three members elected by personnel groups are non-independent of the company, since they are employed by the Group companies, while other 22 Supervisory Board members are independent of the company. Many of the Supervisory Members are either suppliers or customers, or in both of these roles, in relation to the Group companies. This is not considered to have relevance that would make them non-independent in relation to the company. Seven of the Supervisory Board members have served in their position for over 10 consecutive years but this alone does not make them dependent in relation to the company.

Nominating Committee of the Supervisory Board

The Supervisory Board has set up a Nominating Committee to prepare matters concerning the appointment and rewarding of members of the Board of Directors. The Committee makes its proposal to the Supervisory Board, which, in turn, can present the AGM with a proposal concerning the election, remuneration and number of the Board members. The Committee's activities are regulated by rules of procedure approved by the Board and the Supervisory Board.

The Committee consists of the Supervisory Board's Chairman Paavo Myllymäki and Deputy Chairman Holger Falck, based on their posts, as well as of Supervisory Board members elected by the Supervisory Board for each term. In 2020 these members were: Henrik Brotherus, Markku Kiljala and Linda Langh. The Nominating Committee convened three times during the reporting period with an attendance of 95.0 per cent.

Sustainability Committee of the Supervisory Board

The Supervisory Board has set up a Sustainability Committee in December 2019 to oversee the company's compliance with sustainability issues as part of the Supervisory Board's task to supervise the corporate administration run by the Board and CEO. The Committee's activities are regulated by rules of procedure (2019) approved by the Board and the Supervisory Board.

The Committee consists of the Supervisory Board's Deputy Chairman Holger Falck, based on his post, as well as two Supervisory Board members elected by the Supervisory Board itself for each term. In 2020 these members were: Juha Marttila and Olli-Pekka Saario. The Chairman of the Board's Audit Committee has the right to be present and to speak at all of the Sustainability Committee's meetings. In addition, the Committee may also hear the Company's personnel involved in the different areas of the company's sustainability process as experts.

The Sustainability Committee convened twice during the reporting period, with an attendance of 100 per cent.

CEO

Raisio plc's CEO runs the company's day-to-day administration in accordance with the Board's guidelines and regulations and in line with the targets set by the Board (general authority), as well as ensures that the company's accounting complies with legislation and that its asset management arrangements are reliable. The company has not appointed a deputy to the CEO. Raisio's CFO acts as the CEO's substitute, when necessary.

Since November 2017, Pekka Kuusniemi has served as Raisio plc's President and CEO.

Internal control and risk management

The aim of internal control and risk management systems related to Raisio Group's financial reporting process is to ensure the reliability of financial statements and reporting, compliance with laws and regulations, as well as the ethicality, efficiency and profitability of operations.

Internal control

Raisio's internal control is based on the Group's values and policies.

The Board of Directors has the overall responsibility for organizing the internal control and risk management systems related to financial reporting and risk management. The Board has nominated its Audit Committee to ensure, among other things, that the principles established for financial reporting, risk management and internal control are followed. The President and CEO is responsible for maintaining effective supervisory environment and for the internal control related to financial reporting and risk management.

The Group's internal control is a process in which the Board, Board's Audit Committee, management and entire personnel participate. Internal control is thus not a separate organisation, but part of the Group's overall operations.

Financial reporting

In terms of internal control, appropriate financial reporting means that the financial statements give a true picture of the Group's operations and financial position. Raisio's financial reporting is based on harmonised principles in all Group companies. International Financial Reporting Standards (IFRS) are used both in internal and external reporting.

For financial reporting to be reliable, accounting processes must be properly supervised. The Group's financial reporting is coordinated by the Group's financial administration, which is in charge of maintaining and developing the financial reporting process and related supervisory systems. The Group's financial administration and business controllers are responsible for the practical implementation of the control. An independent auditor inspects the accuracy of external financial reporting and also monitors internal reporting.

The supervision of financial reporting is based on the reporting principles and guidelines defined by the Group. The interpretation and application of financial reporting standards is centrally handled by the Group's financial administration, which also supervises compliance with the standards and guidelines. The Group's financial administration is also in charge of determining and centrally maintaining the reporting, budgeting and forecasting processes. Raisio uses a uniform reporting system, and the same principles are applied throughout the Group.

The main control and monitoring tool is the Group's monthly financial and forecast reporting process that analyses the Units' results and deviations against forecasts and against previous year's results. The performance and other key indicators of the Group and its Units are monitored through the Executive Committee's regular meetings, which also ensure the profitability and effectiveness of operations as well as the functioning of internal control. Moreover, the Units monitor the development of their sales and results more frequently, usually on a daily basis.

For the company's key business operations, Raisio has defined its processes and related control measures supported by the ERP system and other control measures related to the processes. In terms of internal control, information systems play an important role as many control measures are IT-based. Data transfers related to the financial process have been automated as much as possible, and automation is further developed. Raisio has used external auditors to evaluate its systems and data transfer processes.

Risk management

Risk identification and assessment have a vital role in the success of internal control. In order to control the effectiveness and profitability of its operations, the Group must be able to manage risks. Raisio's internal control is to provide the management with assurance that the established risk management policy is followed.

Raisio's Risk Management Policy defines the objectives, principles and responsibilities of risk management. Risk management is defined as an activity aimed at identifying and assessing significant external and internal uncertainties that may threaten the strategy implementation and target achievement. Identified risks are eliminated, avoided, reduced or transferred to the extent possible. Raisio's risks fall into strategic, operational, damage and financial risks. Special emphasis is placed on preventive action and its development. Risk management is part of the Group's day-to-day operations and decision-making. Damages caused by products with inadequate safety and related liability risks are a key issue in the risk management of the Group producing foods and feeds.

The Group's financial administration is responsible for coordinating, developing and monitoring risk management. External advisors are also used, when necessary, to develop risk management. The Group's financial administration is responsible for the Group-wide insurance schemes. Their scope is assessed, for example, in conjunction with risk surveys carried out at company sites.

Each Unit conducts its practical risk management in line with the risk management policy and the guidelines established by the Group's financial administration. Operative responsibility is held by the management of each Unit and function. The Units survey and identify risks in connection with budgeting and financial reporting, among other things. The Group is prepared for operations in crises and for crisis communication.

Each Unit and service function, including financing, reports on its main risks to the Group's CFO, who then reports on the risks to the President & CEO, the Group Executive Committee and the Board of Directors.

Internal audit

As a rule, Raisio has opted to include internal auditing tasks in the duties of the Group's financial administration and business controllers, who report to the Group's CFO on matters related to risk management, internal control and audit. Possible findings of internal control and business risks are reported to the Board and its Audit Committee as part of monthly financial reporting.

Verification of the functioning of internal controls is included in the annual audit. If necessary, the Group purchases internal audit services for specified targets from outside the Group. Internal audit service purchased from outside the Group reports directly to the Board.

Related party transactions

Raisio plc's Board of Directors has approved of an internal policy for recognizing related parties and related party transactions and principles of monitoring and assessment of related party transactions. The company's financial function maintains a register of the related parties and collects the information of the related party transactions in the register annually. The related party register is not public, and any information entered in it will not be disclosed to third parties, with the exception of any authorities and the auditor entitled to receive such information. The Company's internal control reviews the information and reports to the auditors and the Board's Audit Committee.

The Board's Audit Committee monitors and assesses how transactions between the company and its related parties meet the requirements of standard business practises and commercial terms. In case the related party transaction would deviate from these, the transaction shall be decided by the Board. Relevant related party transactions will be published as stock exchange releases according to applicable laws and regulations.

Related party transactions are reported by the Company in the consolidated financial statements and the principles and processes in connection with such transactions in the Corporate Governance Statement.

During the financial period 2020, the company had no significant related party transactions that deviated from the company's ordinary business operations or from normal market conditions.

Notification of misconduct

Raisio Group has a procedure and communication channel providing the Group employees an opportunity to represent their concerns or observations through an independent channel, anonymously if required. The procedure allows employees to report not only suspicions or observations of misconduct, but also suspected violations related to financial markets and particularly securities markets (Market Abuse Regulation, Article 32; Securities Markets Act, Chapter 12).
